

HPE SN6600B 32GB 48- PORT/24-PORT 24-PORT 32GB SHORT WAVE SFP+ INTEGRATED FIBRE CHANNEL SWITCH (Q0U58C)

B-series Switches

WHAT'S NEW

- 32 Gb short-wave QSFP with break-out capability added.
- New 16Gb or 32Gb transceivers bundled with switches.

OVERVIEW

Are you struggling to meet the I/O demands of hyper-scale virtualization, large cloud infrastructures, and growing, flash-based storage environments?

The HPE B-Series SN6600B Fibre Channel Switch is a high-performance, ultra-dense, highly scalable, easy-to-use, and NVMe ready enterprise-class storage networking switch delivering Gen6 Fibre Channel (FC) capabilities. It is designed to support data growth, demanding workloads, and data center consolidation in small- to large-scale enterprise infrastructures. Delivering 32Gb to 128Gb performance, customized high port density, and integrated network sensors, it accelerates data access, adapts to evolving requirements, and drives 24x7 businesses. It can scale from 24 to 64 ports with 48 SFP+ and

4 QSFP+ ports, all in an efficient 1U package. In addition, a simplified deployment process and a point-and-click user interface make the HPE B-series SN6600B Fibre Channel Switch easy to use.

FEATURES

Increase Performance for Application and Solid State Storage Architectures

The HPE B-series SN6600B Fibre Channel Switch delivers increased performance through a combination of improved throughput and low latency across 32Gb and 128Gb links in hyper-scale virtualization, large cloud infrastructures, and growing flash-based storage environments.

The onboard ASIC provides up to 566 million frames switched per second and up to 100 million IOPS to meet the demands of flash-based storage workloads. [1]

Port-to-port latency is reduced to 700 nanoseconds using cut-through switching at 32Gb. [1]

With 48 SFP+ ports and 4 QSFP ports, each providing four 32Gb connections, it can scale up to 64 device ports for an aggregate throughput of 2Tb.

Ultra-dense and Highly Scalable

The HPE B-series SN6600B Fibre Channel Switch scales up to 64 Fibre Channel ports in an efficiently designed 1U form factor, delivering increased port density and space utilization for simplified scalability.

Each of the 48 SFP+ ports supports 4, 8, 10, 16, and 32Gb FC speeds, while each of the 4 QSFP ports is capable of supporting 128Gb.

Provides flexibility to utilize high-speed 32Gb as well as 16Gb optics on demand to meet growing data center needs and provide backward compatibility to older infrastructures.

Simplified Management with Deep Analytical Insights

HPE B-series SN6600B Fibre Channel Switch combines HPE Power Pack+ software that helps simplify monitoring, improve operational stability, and dramatically reduce costs.

Proactively and non-intrusively monitor storage device IO providing deep insight into problems and improved service level agreements (SLA).

Gain comprehensive visibility into the fabric using browser-accessible dashboards with drill-down capabilities.

Building Block for Virtualized, Private Cloud Storage

The HPE B-series SN6600B Fibre Channel Switch supports multitenancy in cloud environments reducing the number of switches required.

Provides efficient link utilization with up to 64Gb of in-flight data compression over inter-switch links (ISLs).

Internal fault-tolerant and enterprise-class reliability, availability, and serviceability (RAS) features help reduce downtime to support mission-critical cloud environments.

Technical specifications

HPE SN6600B 32Gb 48-port/24-port 24-port 32Gb Short Wave SFP+ Integrated Fibre Channel Switch

Product Number (SKU)	Q0U58C
Port speed	32 Gbps Fibre Channel
Aggregate switch bandwidth	2 Tbps, maximum
Encryption capability	In-flight encryption
Protocol supported	Fibre Channel
Availability features	Hot code load, ports on demand with no downtime
Form factor	1U
Management features	B-series SAN Network Advisor Integration with Storage Essentials
BladeSystem supported	No
Upgradability	Varies by model
Models available	24-port Active Switch, 24-port Active Power Pack+ Switch, 24-port Active switch bundled with 24 32G SFP+, 24-port Active Power Pack+ Switch bundled with 24 32G SFP+, 48-port Active Switch, 48-port Active Switch Power Pack+, 48-port Active Switch bundled with 48 32G SFP+, 48-port Active Power Pack+ Switch bundled with 48 32G SFP+
Software (optional)	HPE Power Pack+ software, 12-Port Upgrade, Integrated Routing, ISL Trunking, and HPE SAN Network Advisor Professional+ or Enterprise
Minimum dimensions (H x W x D)	4.39 x 44 x 35.56 cm
Weight	7.73 kg with two power supply FRUs, without transceivers

HPE POINTNEXT

Access expertise at every step of your IT journey with [HPE Pointnext Services](#). [Advisory Services](#) focuses on your business outcomes and goals, to design your transformation and build a roadmap tuned to your unique challenges. Our [Professional](#) and [Operational Services](#) help speed up time-to-production and keep your IT stable and reliable.

Operational Services from HPE Pointnext Services

- [HPE Datacenter Care](#) helps modernize and simplify IT operations. Partner with an assigned account team, access technical expertise, an enhanced call experience gives you priority access, choose hardware and software support, implement proactive monitoring to help stay ahead of issues, and access HPE IT best practices and IP.
- [HPE Proactive Care](#) offers an enhanced call experience and helps reduce problems with personalized proactive reports and advice. This also includes collaborative software support for Independent Software Vendors (ISVs), (Red Hat, VMWare, Microsoft, etc.). [Read more](#)
- [HPE Foundation Care](#) helps when there is a problem and has a choice of response levels. Collaborative software support is included and provides troubleshooting help for ISVs running on your server. [Read more.](#)

Other related services

[Defective Media Retention](#) is optional and applies only to Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

[HPE Service Credits](#) offers a menu of technical services, access additional resources, and specialist skills.

[HPE Education Services](#) delivers a comprehensive range of services to support your people as they expand their skills required for a digital transformation.

Consult your HPE Sales Representative or Authorized Channel Partner of choice for any additional questions and support options.

HPE GREENLAKE

[HPE Greenlake](#) is HPE's market-leading IT as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model. HPE GreenLake delivers public cloud services and infrastructure for workloads on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please [explore them here](#).
